

Welcome to the
University of Maryland
4-year Oral and Maxillofacial Surgery Program

History – Dental School

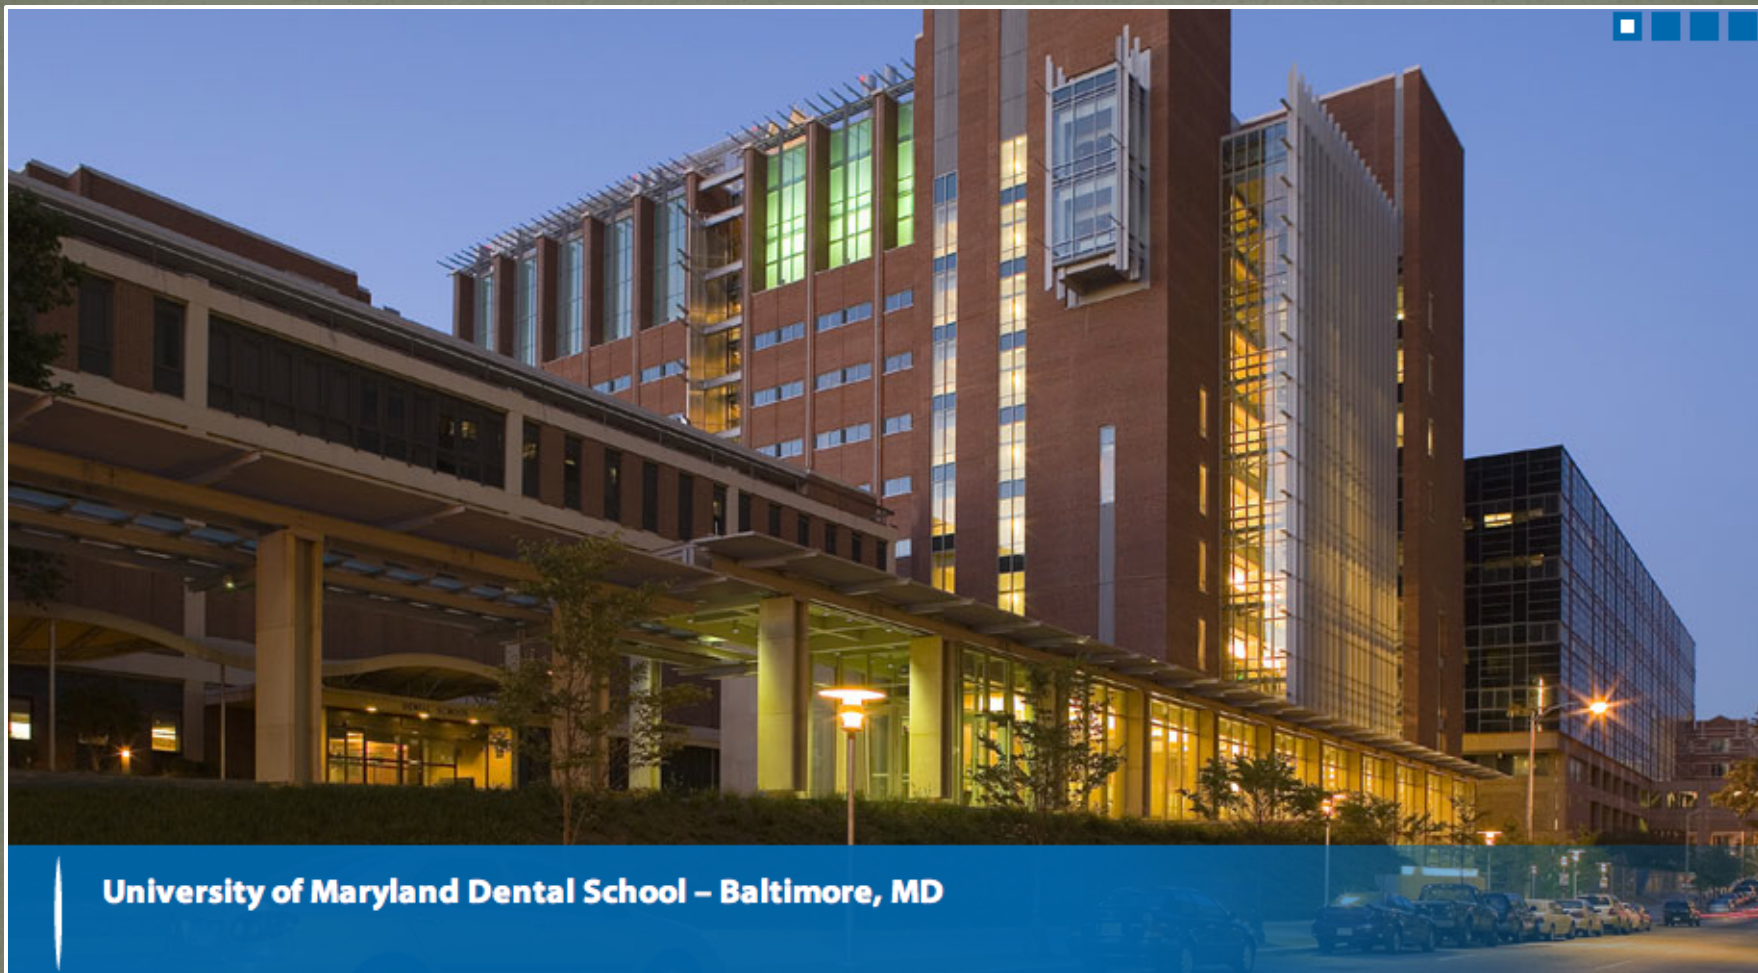

- Formal education in dentistry originated in 1840 when the Baltimore College of Dental Surgery was chartered by the General Assembly of Maryland.
 - ...Horace H. Hayden, M.D., D.D.S. and Chapin A. Harris, M.D., D.D.S., two dental practitioners who recognized the need for formal education.
- BCDS served as the prototype for dental schools gradually established in other American cities...with **equal** emphasis on sound knowledge of general medicine and development of the skills of dentistry.

History – Dental School

- BCDS enjoys one of the most advanced dental education facilities in the world.
- The new 12 story building was completed in October of 2006.
- The total cost...near \$150 million.
